Transitional Care II – Expansion of rehabilitative services remains a goal to improve financial performance by expanding Medicare services and to improve the rehabilitative experience of individuals served in the Center outside of the primary 26-bed Transitional Care Unit. This space will eliminate scatter-bed placement of rehabilitative patients, as had been the past practice.

2. PROCLAIMING APRIL 7-13, 2014 AS "NATIONAL PUBLIC HEALTH WEEK" AND THE THEME IS "PUBLIC HEALTH: START HERE."

WHEREAS since 1995, the American Public Health Association, through its sponsorship of National Public Health Week, has educated the public, policymakers and public health professionals about issues important to improving the public's health;

WHEREAS seven in 10 deaths in the U.S. are related to preventable diseases such as obesity, diabetes, high blood pressure, heart disease, and cancer. Another striking fact is that 75 percent of our health care dollars are spent treating such diseases. However, only 3 percent of our health care dollars go toward prevention;

WHEREAS nearly one-third of all students in the U.S. do not graduate from high school on time. Students who don't graduate face lifelong health risks and high medical costs, and are more likely to engage in risky health behaviors. They are less likely to be employed and insured, and earn less-all of which continues to cycle of poverty and disparities.

WHEREAS more than half of all cancer deaths could be prevented by making healthy choices like not smoking, staying at a healthy weight, eating right, keeping active, and getting recommended screening tests.

WHEREAS food-borne contaminants cause an average of 5,000 deaths, 325,000 hospitalizations, 76 million illnesses, and costs billions of dollars annually. The five most common food-borne pathogens cost the U.S. economy more than \$44 billion each year in medical costs and lost productivity.

WHEREAS strong public health systems are critical for sustaining and improving community health:

1. PROCLAIMING THE MONTH OF APRIL AS CHILD ABUSE PREVENTION MONTH

Whereas throughout the year, the Livingston County Department of Social Services Child Protective Services Unit protects children by investigating all allegations of child abuse and maltreatment, and;

Whereas the purpose of the Child Protective Services Act of 1973 is to encourage more complete reporting of suspected child abuse and maltreatment and established the requirement that each county investigate all reports in order to protect children from further abuse and maltreatment, and;

Whereas Child Abuse and Maltreatment research shows that when parents possess six protective factors, the risk for neglect and abuse diminishes and optimal outcomes for children, youth, and families are promoted, and;

Whereas Livingston County believes that focusing on ways to build and promote the protective factors, in every interaction with children and families, is the best thing our community can do to prevent child maltreatment and

VETERAN’S SERVICES AGENCY – FRANK HOLLISTER

Informational Item(s) Written Only

- 1. On March 7, 2014, County Highway Superintendent Don Higgins, myself and two representatives from the Canandaigua VAMC met to discuss the placement of and requirements for the mobile medical unit that is under construction and will hopefully be fully operational by September 2014. The County Highway facility has the ability to put the motor home inside one of it’s bays with electrical, internet and water hook-ups readily available. There is also adequate parking and a lounge area where veterans can wait for their appointment. At present, the mobile unit will be here on Fridays and have space for audiology, blood draw, mental health services, primary care visits and telehealth. This office will be working with local organizations such as RSVP and Senior Companions to assist in transporting senior veterans and their spouses to the mobile unit.
- 2. Service Officer Training was held at the Buffalo Regional Office on March 11, 2014. We were introduced to the newly appointed Regional Manager and Deputy Manager for Compensation and Pension. New policies and procedures were discussed for Fully Developed Claims (FDCs), which will “hopefully” expedite future claims, as long as all pertinent/required paperwork are submitted with the original claims. Those Service Officers who work “in the field” or who are County Service Officers, made the R.O. aware of the fact that we have unique situations that makes it very difficult to comply with the VA’s impending mandates. Some counties do not have the budgets to implement what the VA is requiring, some counties still submit claims on VA forms by writing or typing in the information required, those Service Officers at the R.O. very seldom have face-to-face contact with clients, but do their claims via the phone and mail the claim to the claimant to be signed. The VA is pushing for the implementation of ebenefits, utilized by the veteran, to establish and follow the individual claim. Older veterans are not computer literate and do not want to be. The VA has informed all Service Officers that around July 1, 2014, they will stop sending Rating Decisions, awards letters, request for information, etc. to the Service Officers, only to the claimants. Without the information provided and requested of the veteran, numerous claims could/will be lost due to the time frames responses are to be submitted.
- 3. The SEP program has, at this time, proven to be inadequate. After the training and submission of an application for the PIV card from the VA, no one in attendance at our CVSOA meeting can use the system established by the VA to review veteran records. If a Service Officer wants to apply for the program using his or her credit card, they can enter they system, for a short period of time. No one is willing to give the VA their credit card information. Another stalemate!
